

Challenge for SDGs: C&S Initiatives

To contribute to the achievement of the SDGs, we will primarily focus on addressing the following issues:

SDG s 3	Health protection for all employees and their families
SDG s 5	Creation of career advancement opportunities for women
SDG s 8	Innovation and human-centric work styles
SDG s 1 1	Contribution to eco-friendly and clean communities
SDG s 1 3	Contribution to a decarbonized society
SDG s 1 4, 1 5	Cultivation of a mindset that values nature

Our Efforts to Produce the Maximum Results

Economy

Underlying Technologies and Data [Acquisition of AI skills and creation of new value in the healthcare sector leveraging ICT]

- ⑧ Expanding the pool of Python-skilled personnel
- ⑧ Creating customer value through direct sales
(Expanding sales of in-house packages)
- ①⑦ Securing strategic project orders from Fujitsu Japan
- ①⑦ Achieving partner registration with Fujitsu

Society

Pursuing the creation of a comfortable and supportive workplace

- ③ Promoting health and productivity management
- ⑤ Promoting women's career advancement
(Appointing +1 new female executive by 2027)
- ⑧ Work style reform

Environment

Contributing to a Circular Economy

- ①① Participating in local volunteer activities
(Engaging in local volunteer activities by 2030)

Thoroughly promoting energy conservation

- ①③ Reducing electricity consumption (Initiatives aligned with target setting at the SBT Well-Below 2° C level)
- ①③ Frequently turning off lights, setting PCs to sleep mode when not in use, etc.
(Achieving an annual reduction rate of 2.7% by 2030, with 2022 as the base year)
